# CUSTOM MEZZANINE LEADER

FOR OVER 20 YEARS

Cubic Designs Inc.  
CUSTOM MEZZANINE SYSTEMS

866-333-0728

CUBIC MEZZANINES are custom designed with CAD technology and backed by a LIFETIME STRUCTURAL WARRANTY. All Cubic Mezzanine drawings and calculations are stamped by a licensed, on-staff professional engineer to assure you of design integrity, structural safety and building code compliance. PE Stamped drawings detail mezzanine layout, column placement, stair runs, gate locations, connections and all other details. Cubic Mezzanines meet IBC, UBC, BOCA, SBC, LOCAL CODES, AISC & ASTM standards, and OSHA requirements. Cubic Mezzanines can be designed around equipment, building columns and other obstructions to fit your exact area, height and load requirements.

NO OTHER MEZZANINE MANUFACTURER CAN MATCH OUR ENGINEERING EXPERTISE AND LEVEL OF EXPERIENCE

CUBIC MEZZANINES are installed inside manufacturing and processing plants, retail stores, office buildings, industrial plants, universities, government facilities, warehouses, hospitals and institutions throughout the nation. Add space over traffic areas...over equipment...over work areas...and more. Create new production, office, storage or assembly space, locker rooms, parts departments, stockrooms, cafeterias, company records storage, work platforms, distribution centers and more. Choose from single or multi-level designs customized to your specific application. Add a vertical lift, rack, shelving, carousels, conveyors, in-plant offices - whatever you need to help you maximize your cube and improve building usage.

**WE'VE DESIGNED OVER 6,000 WAYS TO USE A MEZZANINE FROM 100 SQ. FT. TO OVER 200,000 SQ. FT.**

We know how to design and build mezzanines. We build them big, small, all shapes and sizes. Whatever the case, we build them to exact customer specifications. All production operations from metal fabrication to powder coating are housed within our 74,000 sq. ft. licensed manufacturing facility. Quality is maintained from weldments to finished assemblies to careful inspection of all components. We stand behind each and every mezzanine we manufacture and we have the customer list to back-up our success. Let us show you what a CUBIC MEZZANINE can do for you. Look us up when you need to add a second or third level inside your facility and we'll show you how to turn unused cube into usable space.

STRICT QUALITY IS MAINTAINED FROM FABRICATION TO POWDER COATING TO FINAL INSTALLATION

CUBIC MEZZANINES ARE BACKED BY A  
LIFETIME STRUCTURAL WARRANTY  
THE BEST IN THE INDUSTRY

CUBIC MEZZANINES are customized to fit your exact area, height, and load requirements. A variety of special options are offered to meet your specific needs. Choose from several deck surfaces, paint colors, code-approved stair designs and swing or sliding gates. Vertical railing, cable railing & custom railing systems are also available. Other options include unique column spacing, wide spans and special cantilevering. Cubic Mezzanines are designed to accommodate facility lighting, sprinkler pipe, HVAC ducts, computer & electrical conduit. They can also be integrated with in-plant offices, conveyors, rack systems, vertical lifts and other material handling products.

**FRAMING SYSTEMS INCLUDE WIDE SPAN BAR JOIST  
AND HIGH STRENGTH BOLTED SYSTEM  
DESIGNED FOR SEISMIC ZONE 3 AND ZONE 4**

When you are faced with space problems, a custom designed Cubic Mezzanine is the perfect solution. Cubic Mezzanines are professionally engineered and backed by a lifetime warranty. We cover all details from on-site measurements to complete mezzanine design, fabrication and worry-free installation.

#### Cubic Mezzanine Advantages:

- Offset rising space costs.
- Save new construction costs.
- Eliminate leased space.
- Affordable solution that utilizes cube.
- Double or triple your existing space.
- Save land acquisition and energy costs.
- Improve inventory management & control.
- Create more space without expanding.
- Customized to fit your exact space needs.
- Expandable to meet future growth needs.
- Easy to disassemble and relocate.
- Save insurance premiums & property taxes.
- Streamline logistics & improve communication.
- Reduce building maintenance.
- Qualify for accelerated tax depreciation.

#### Cubic Engineering Benefits

- Engineers registered throughout USA.
- CAD technology improves design capabilities.
- Engineering staff has over 40 years experience.
- Calculations checked by on-staff registered PE.
- PE Stamped drawings assure structural integrity.
- PE drawings facilitate permit approval.

#### Custom Designed Benefits

- Include on-site measurements, design, installation.
- Comply with all building codes.
- Accommodate lighting, sprinklers, HVAC ducts.
- Customized to your exact area, height, load.
- Accommodate computer & electrical conduit.
- Freestanding, shelving supported, full mat designs.
- Incorporate wide spans, unique column spacing.
- Integrate with offices, rack, vertical lifts.
- Feature high-strength bolted connection system.
- Specifically engineered for Seismic Zone 3 & 4.

#### Special Options

- Variety of deck surfaces.
- Durable powder coated paint finish.
- 14 standard paint colors.
- Galvanized and epoxy finishes available.
- Custom colors and paint textures available.
- Variety of hand railing systems.
- Swing and sliding gates.
- Code-approved stairs in a variety of sizes.
- Unique column spacing, wide spans & cantilevering.
- Integration with other material handling products.

#### Cubic Designs Experience

- Over 20 years experience.
- Over 6,000 mezzanines installed.
- 100 sq. ft. to over 200,000 sq. ft. installations.
- Licensed fabrication facility.
- Nationwide dealer network.
- Thousands of satisfied customers.
- Lifetime warranty...best in the industry.
