### All Cabinets Include Standard Features & Benefits Shown On Page 3

All steel cabinets meet NFPA Code 30 and OSHA specifications. Self-closing models meet Uniform Fire Code and NFPA Code One requirements.

- Special corrosion resistant powder coat finish on all internal and external surfaces, including shelves
- Includes poly shelf and bottom trays to help contain small spills and provide extra corrosion protection

### \*FM Designates Factory Mutual Tested & Approved.

- Steel cabinets are not recommended for the storage of aggressive acids such as nitric, sulfuric and hydrochloric
- Also available in 100% polyethylene construction for storage of aggressive acids

### Poly Acid Cabinets have the following features:

- Sealed internal and top spill sumps, adjustable shelves and storage in the door for small bottles
- Lockable doors provide secure storage of dangerous acids
- Includes 2-2" poly vents with caps, 4-poly leveling legs and specific warning labels
