

GLIDE-OUT 100

RACK ENGINEERING DIVISION (RED)

GLIDE-OUT 100

Rack Engineering Division's (RED) Glide-Out 100 is a space saving solution designed for accessing materials quickly and safely. High weight capacity shelves, smoothly glide out for easier accessibility to materials. Access the shelves from an overhead crane or hoist from the front side of the storage system. The Glide-Out 100 is a built to last solution perfect for storing dies, castings, engine components, generators, chemicals, and other materials that are too valuable to handle with a forklift.

Up to 4,000 lbs. Capacity Per Shelf

100% Shelf Extension

ABOUT US

Rack Engineering Division (RED) specializes in the manufacturing of racking and storage solutions that are heavy duty and constructed to endure high capacities and tough industrial environments. Rack Engineering Division was originally founded in 1935 in response to an industry need for cost effective solutions to storage and handling problems for raw materials and tooling while helping customers save time and space by optimizing workflow. Since this time we continue to solve high capacity storage challenges with a quality product supported by a wide network of distributors and integrators throughout North America.
