MAXVIEW™ CORROSION RESISTANT CABINETS

HIGH VISIBILITY All-Welded Cabinets

Taking the MaxView Locker to the next level by incorporating high security 3-point turn-handle latch and adjustable shelves.

FEATURES:

BODY CONSTRUCTION: All-welded 16 gauge heavy-duty tubular frame construction from galvanized sheet steel, sides and back are 1/2" 13 gauge flattened expanded metal. Top and bottom are heavy-duty galvanized corrosion resistant sheet steel, fully-assembled

BODY STYLES: Single tier

DOOR: 14 gauge door is diamond perforated for maximum visibility and ventilation. Includes a welded-in full height door stiffener

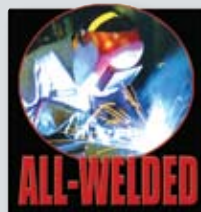

HINGES: Heavy-duty 13 gauge 7-knuckle (3 hinges per door)

HANDLE: Cremone 3-point high-security turn handle latching with heavy-duty 3/8 lock rods which engage the top and bottom locker frames while the cam engages the frame at the door jamb near the handle.

SHELVES: Four 16 gauge sheet steel welded-in fixed shelves are fabricated from galvanized corrosion resistant sheet steel. Adjustable on 1" centers.

Heavy gauge tubular frame. Bottom shelf of locker sits a full 2-3/4" above finished floor protecting locker contents from water damage.

DURATOUGH™

Classic and Galvanite™ Series All-Welded Cabinets

Classic Series cabinets are fabricated from prime grade cold rolled sheet steel.

Galvanite Series cabinets are fabricated from galvanized sheet steel which has a zinc-iron alloy coating that is applied at the mill providing protection against high-humidity and moist environments. This coating also prevents corrosion from spreading when the paint and/or coating is scratched away.

Heavy-Duty cabinets are fabricated from 16 gauge sheet steel and are fully-welded creating a rigid, durable unit.

Extra Heavy-Duty cabinets are fabricated from 14 gauge steel which is 25% thicker than 16 gauge providing MAXIMUM durability.

Safety-View® Series cabinets incorporate polycarbonate panels in both doors of our extra heavy-duty Classic Series cabinets allowing contents to be visible without compromising security.

Ventilated Series cabinets are fabricated to the same rugged standards as our extra heavy-duty Classic Series cabinets with the added benefit of being fully ventilated with diamond perforated doors and sides and a 13 gauge flattened expanded metal back.

18-gauge full-height door stiffener provides maximum rigidity to both doors

Heavy-Duty 3/16" thick steel handle with padlock hasp.

1/8" thick latch and 3/8" diameter lock rods insure maximum security

Standard Features for all DuraTough™ Classic and Galvanite™ Series Cabinets

- All-welded construction
- Double door design
- Solid doors are reinforced with an 18 gauge full-height door stiffener providing a rigid torque-free door.
- 3-point turn handle locking using 3/8" diameter locking rods operated by a 3/16" gauge steel handle. Handle is painted to match cabinet.
- Heavy-duty 13 gauge 7-knuckle 3-1/2" butt hinges welded to door and securely riveted to frame.
 - Solid sides are formed to be integral with vertical door frame.
 - Top is formed to be integral with horizontal top door frame.
 - Bottom is formed to be integral with horizontal bottom door frame and includes double return bends at all four sides maximizing unit rigidity.

- Back is welded to cabinet top, bottom and sides
- Shelves are formed to provide maximum capacity and are adjustable on 3" centers. Shelves bolt to shelf support channels which are welded to sides.
 - 78" high storage cabinets include 4-adjustable shelves
 - 60" high storage cabinets include 3-adjustable shelves
 - 42" high storage cabinets include 2-adjustable shelves
 - 78" high combination cabinets include one full-width upper shelf, a center partition, 3 partial-width shelves and one partial-width coat rod
- Optional leg kits are available and can be bolted on to all DuraTough cabinets.
- Color: 738 Charcoal
