

OTHER STORAGE RACKS

REEL RACKS

STORE AND DISPENSE VIRTUALLY ANY PRODUCT THAT MUST BE PAID OUT FROM A REEL

MECO OMAHA's Reel Rack is built to withstand the abuse and punishment found in a manufacturing or distribution environment. Store and dispense poly or wire rope, hose, electrical cable or chain—anything on a reel or spool. Double welded uprights are manufactured from hefty 3" structural channel and welded to a 4" channel base. 96" units have 3 pairs of axle brackets and axles, 120" and 144" units have 4 pairs (additional axles and brackets may be ordered separately). The **MECO OMAHA** axle bracket is adjustable on 2" centers up and down the uprights. Axles supplied by **MECO OMAHA** are 1½" diameter; brackets accept axles up to 2½" diameter. It is strongly recommended that units be secured to the floor before use. Ships knocked down; gray enamel finish with orange axle brackets.

RR438
20,000 lb. capacity

• 2,000 LB CAPACITY PER LEVEL

STARTER UNITS					
MODEL NO.	DIMENSIONS*			MAX. REEL WIDTH	WEIGHT
