HOPPERS

SERIES 90 SELF DUMPING HOPPERS

FULL 90° DUMP ANGLE FOR 100% DISCHARGE OF WET, VISCOUS MATERIALS.

The Series 90 Self Dumping Hopper is designed for forklift handling. Easy dump release: while seated on forklift, operator simply pulls the dump cable to release the spring-loaded latch for a full 90° tilt. Hopper returns to an upright position when lowered to the ground. A positive locking mechanism prevents accidental dumping while a safety chain secures the hopper to the forklift.

Available in orange or gray enamel. Hoppers will be painted orange unless suffix "-G" is added to the model number.

Dimensions represent the overall width, length and height.

• EXTRA HEAVY DUTY HOPPERS • 7 GA. STEEL • 1/4" STEEL BASE
