

# CYLINDER STORAGE AND HANDLING EQUIPMENT

## CYLINDER PALLET RACKS

SECURE, EASY STORAGE AND FORKLIFT MOBILITY

**MECO OMAHA** Cylinder Pallet Racks hold cylinders up to 9" in diameter securely in place for easy storage and mobility. Hinged dividers provide convenient access to individual cylinders from either end. Units are all double welded steel construction. 7 gauge steel fork pockets accommodate forks up to 6" wide allowing storage and delivery with your forklift. Select models with two swivel/two rigid casters for additional maneuverability. Ships completely assembled; orange enamel finish.

### • 19<sup>3</sup>/<sub>4</sub>" CLEARANCE REQUIRED BETWEEN FORKS

MODEL NO.	NUMBER OF CYLINDERS	HEIGHT	WIDTH	DEPTH	WEIGHT
CP4	4	41"	34"	23"	156 lbs
CP6	6			33"	204 lbs
CP8	8			43"	250 lbs

### • WITH 4" HARD RUBBER CASTERS • 1500 LB CAPACITY

MODEL NO.	NUMBER OF CYLINDERS	HEIGHT	WIDTH	DEPTH	WEIGHT
CP4-C	4	46"	34"	23"	177 lbs
CP6-C	6			33"	224 lbs
CP8-C	8			43"	272 lbs

## CYLINDER TRUCKS

EFFORTLESSLY MOVE 6 OR 8 HEAVY CYLINDER BOTTLES WITHOUT THE AID OF MECHANIZED EQUIPMENT

Choose a double welded **MECO OMAHA** Cylinder Truck to handle cylinders up to 9<sup>1</sup>/<sub>4</sub>" in diameter. The 1/4" steel deck and 1" square tube superstructure are built for durability and years of service; a 3/4" diameter push handle provides comfortable operation. Cylinders are held safely in place by two heavy duty chains 37" above the deck. Both models roll smoothly on two swivel/two rigid phenolic casters, wheels have roller bearings.

A floor clearance of 11/2" on the **six cylinder model** makes loading and unloading easy; truck is held securely in place with a floor lock.

A 10" wide fold-down ramp on either side of the **eight cylinder model** allows cylinders to be loaded without effort. Brakes on the swivel casters keep truck stationary.

Ships assembled; orange enamel finish.
